Activities

FUN FOR ALL!

Riverwalk:

Consistently a favourite with our younger students. Kitted out in wetsuits, buoyancy aids and helmets, students make their way up through the river completing a number of games & challenges along the way, finishing with the highlight at the plunge pool.

Canoeing & Kayaking:

Takes place at our base in Lough Gur using larger Canadian style canoes (3 persons) or single kayaks, students get the chance to learn new skills and explore this historic landscape.

Activities

Rockwall:

Climbing is an excellent physical activity for primary school students and promotes strength, fitness & co-ordination.

Orienteering:

The essential life skill of navigation is introduced in a fun environment, where students race in teams to locate all the control points using their map.
